Getting Started

There'll be some setting up before you can start using git. It'll depend on your operating system — you can refer to the installation guide [here](#). Below are the more popular methods of installation.

macOS `brew install git`¹

Linux Depends on your distro. If Ubuntu use `sudo apt-get install git-all`, if Arch Linux then `pacman -S git`, if others refer [here](#).

Windows Download a .exe from [here](#).

¹Or whatever hip package manager you use.
